Cleghorn Minerals Ltd.

Notes to Interim Financial Statements

December 31, 2015

(All amounts are expressed in Canadian dollars, unless otherwise noted.)

1 - NATURE OF OPERATIONS

Cleghorn Minerals Ltd. (the "Company") is classified as a "Capital Pool Company" ("CPC") for purposes of the policies of the TSX Venture Exchange (the "Exchange"). The Company's current business is to identify and evaluate businesses and assets in order to complete a "Qualifying Transaction" in accordance with the rules of the Exchange. Until completion of such Qualifying Transaction, the Company will not carry on any other business.

2 - GOING CONCERN ASSUMPTION AND COMPLIANCE WITH IFRS

The financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) and the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company's ability to continue as a going concern depends upon the realization of a successful Qualifying Transaction that will achieve a profitable level of operations and also on the ability of the Company to obtain necessary financing to fund its operations and continued support of suppliers and creditors. The Company's ability to achieve these objectives cannot be determined at this time. As at December 31, 2015, the Company has a cumulated deficit of \$866,837 (\$765,159 as at March 31, 2015).

The business of the Company involves a high degree of risk and there is no assurance that the Company will identify an appropriate business for acquisition or investment under the policies of the Exchange, and even if a business is identified, the Company may not be able to finance such an acquisition or investment. Additional funds may be required to enable the Company to pursue such an initiative and the Company may be unable to obtain such financing on terms that are satisfactory. Furthermore, there is no assurance that the business will be profitable. Any acquisition or investment proposed by the Company will be subject to regulatory approval. These material uncertainties cast significant doubt regarding the ability to continue as a going concern.

The carrying amounts of assets, liabilities, income and expenses presented in the financial statements and the classification used in the financial statements have not been adjusted as would be required if the going concern assumption was not appropriate. Those adjustments could be material.

3 - GENERAL INFORMATION

Cleghorn Minerals Ltd. was incorporated on February 16, 2010 under the Business Corporations Act of British Columbia. The Company is classified as a "Capital Pool Company" (CPC) for purposes of the policies of the TSX Venture Exchange. The head office of the Company is located at 152 Chemin de la Mine École, Val d'Or, Québec, Canada.

In February 2013, following the Company's failure to meet the Exchange requirement of completing a Qualifying Transaction within the prescribed time period of 24 months of its listing, the common shares of the Company were transferred to NEX, rather than being delisted. On February 21, 2013, the common shares of the Company commenced trading on NEX under the symbol JZZ.H.

("Globex") to acquire Globex's 100% ownership interest in the mineral claims located on the Hematite Property in the Labrador Trough in Northern Quebec. The Company has received the Exchange conditional acceptance of the proposed transaction and at the June 25, 2015 Annual General Meeting has obtained approval by its minority shareholders. 10 - LOSS PER SHARE

The calculation of basic loss per share is based on the loss for the period divided by the weighted average number of shares in circulation during the period. In calculating the diluted loss per share, potential common shares such as share options and warrants have not been included as they would have the effect of decreasing the loss per share. Decreasing the loss per share would be antidilutive. Details of share options issued that could potentially dilute earnings per share in the future are given in Note 7.

Both the basic and diluted loss per share have been calculated using the loss attributable to owners of the Company as the numerator, i.e. no adjustment to the loss were necessary in either of the periods ended December 31, 2015 and 2014.

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Loss for the period attributable to the owners of the Company	(101,678)	(107,209)
Weighted average number of shares outstanding (1)	2,800,500	2,800,500
Basic and diluted loss per share	<u>(0.04)</u>	<u>(0.04)</u>

There have been no other transactions involving common shares between the reporting date and the date of authorization of these financial statements.

(1) Seed shares are excluded from weighted average number of shares outstanding because they are considered as contingently issuable share until the qualifying transaction occurs.
