### 4 Exploration and evaluation assets

#### Meech Lake Matachewan Prospect

The Company owns a 100% interest in the Meech Lake Matachewan Prospect which consists of four (4) mining claims situated in the Argyle, McNeil and Robertson Townships, approximately 25 km Northwest of Matachewan, in Northeastern Ontario within the Abitibi Greenstone Belt. Following the MLAS claim to cell conversion process completed by Ontario's Ministry of Northern Development and Mines (MNDM), the four (4) original legacy claims covering 656 ha were converted to 41 cells (36 single cells and 5 boundary cells) covering an area of 831.51 ha.

On March 7, 2020, the Company signed a mineral claim purchase agreement for the acquisition of a 100% interest in 142 mineral claims known as the Sprague and Odie prospects in consideration of 1,500,000 units. Each unit comprises one common share in the capital of the Company and one-half of one purchase common share warrant. The fair value of the shares was evaluated at \$90,000. Each whole warrant entitles the holder to acquire an additional common share in the capital of the Company at a price of \$0.10 until April 8, 2022. The fair value of the warrants was evaluated using the Black & Scholes valuation model at \$26,383.

The Sprague prospect is located directly adjacent to the northeast corner of the Meech Lake Matachewan prospect and the Odie prospect is located directly adjacent to the southwest corner of the Meech Lake Matachewan prospect. These two properties are considered to be an extension of the Meech Lake Matachewan prospect, and are together referred to herein as the Meech Lake Matachewan prospect.

Three (3) of the original mining claims are subject to a 3% NSR on metals or minerals (iron, titanium, vanadium, gold, silver, copper, zinc and any and all other minerals or elements) produced from the property. The Company shall be entitled to repurchase 0.5% of the NSR, leaving the vendor with a 2.5% NSR, by paying to the vendor \$1,000,000 and an additional 1%, leaving the vendor with a 1.5% NSR, by paying the vendor an additional \$3,000,000.

As part of a prospecting funding application, the Company signed, on September 13, 2016, a funding and royalty agreement with Ontario Exploration Corporation under which the Company granted a 0.5% NSR on its Meech Lake Prospect in consideration of \$10,000 in cash.

The royalty agreement has a buyback clause which provides that the Company can purchase one-half of the 0.5% royalty for a dollar value that increases over time, ranging from a purchase price of \$15,000 before the second anniversary of the date of the agreement to a purchase price of \$250,000 from the 11th anniversary of the agreement and beyond.
